No Wasted Gripping Area

EPIROC® P/N 3222 3113 62 Spacer

425's Aftermarket P/N 3163

With EPIROC®, one size **MUST** fit all. The only size jaw EPIROC® offers is designed around the most popular pipe size. This jaw fits evenly between the 3-1/2" and 4" drill pipe sizes. This is also, by far, our best selling jaw size. (Our 425 P/N 1889) Our customers have requested that we give them more variety. **425 Manufacturing** is proud to say that we have now designed jaws specifically to fit 3" diameter and 4-1/2" diameter pipe. Let for **425 Mfg.** give you more options, three to be exact.

3" - 76MM Drill Pipe
